About the vulnerability report

Dear Parag Bagul,

IMCS UL (The Institute of Mathematics and Computer Science, University of Latvia) is the host organisation for CERT.LV – Latvian national and governmental CSIRT team.

CERT.LV has received your vulnerability report on 22 July 2022 regarding the XSS vulnerability in one of our constituents' resources. We have verified the report, found it to be valid, informed our constituent and we will follow up until this case is resolved and problem fixed.

CERT.LV would like to thank you for the valuable information you have provided us which have helped us to secure Latvian IT resources. We express official appreciation for your efforts.

If you find other vulnerabilities in the Latvian IP address space we encourage you to share these findings with CERT.LV thus helping us to secure our constituency in the future.

Yours sincerely,

IMCS UL Director
