Dear Parag Bagul,

On behalf of the TU/e, I would like to thank you for bringing multiple vulnerabilities to our attention.

By reporting this vulnerability you gave us the opportunity to improve our security. As an organization in the educational sector we know the importance of cyber security. We have a security framework and several security measures in place to protect the information of the university. However, it is always possible that certain vulnerabilities are overlooked. Therefore, we appreciate it very much that you took the time and effort to report the vulnerability to us in a responsible manner.

Thank you again for reporting this. Please keep up the good work! Should you find more vulnerabilities we hope to hear from you again.

Yours sincerely,
